steel buildings & storage systems  
group of companies

Structural Analyze  
Design  
Exporting  
Manufacture

*you imagine we do*  
[www.akdenizrack.com](http://www.akdenizrack.com)

*WE PROVIDE STEEL STRUCTURE SOLUTIONS.  
BUT WHAT WE REALLY DELIVER IS PEACE OF MIND.*

When you work with [AkdenizSteel](#), you are buying more than a flatbed of steel from a factory. You are buying the total confidence that comes from knowing your project will be expertly managed every step of the way, from design and engineering to fabrication and delivery. We start every project with one simple question; What is your dream?

By taking the time to fully understand exactly what you need, we are able to design a fully customized steel building, better than what you have already built in your imagination. We pride ourselves on our promise to deliver projects both on time and on budget anywhere in the world.

You cannot put a price on certainty, or on the peace of mind that comes from working with [AkdenizSteel](#) Steel Buildings.

*We're with you all the way.*

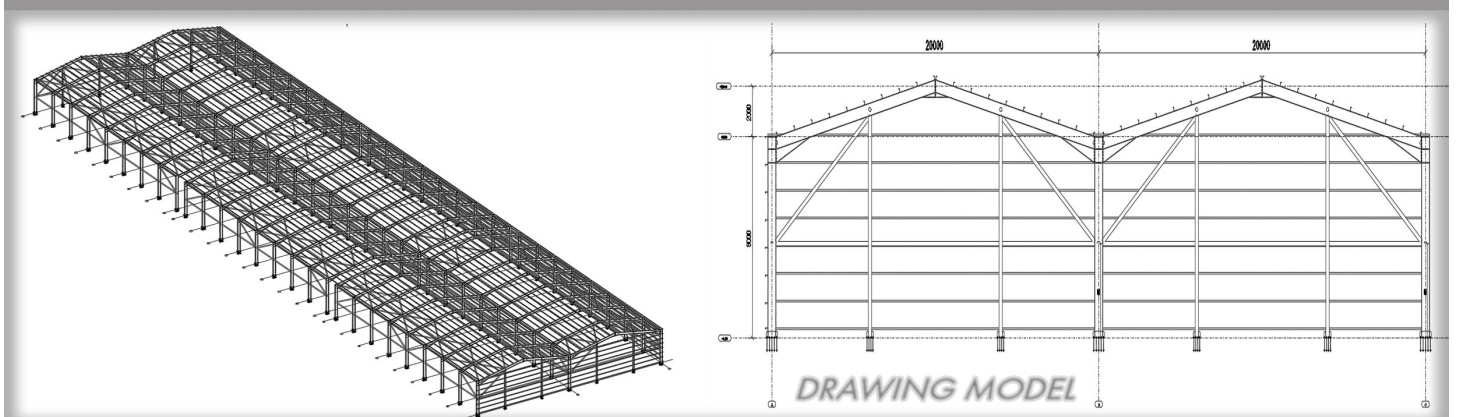

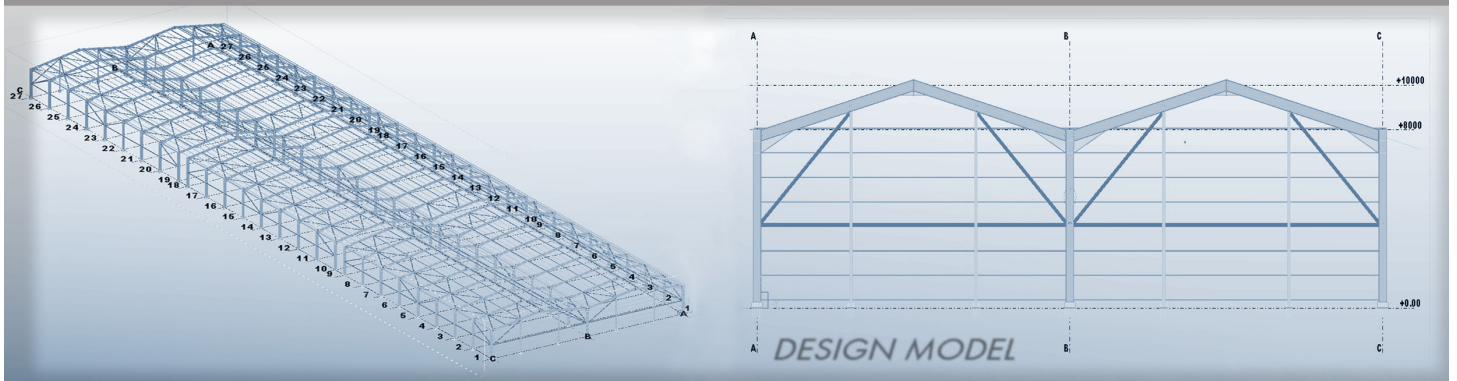

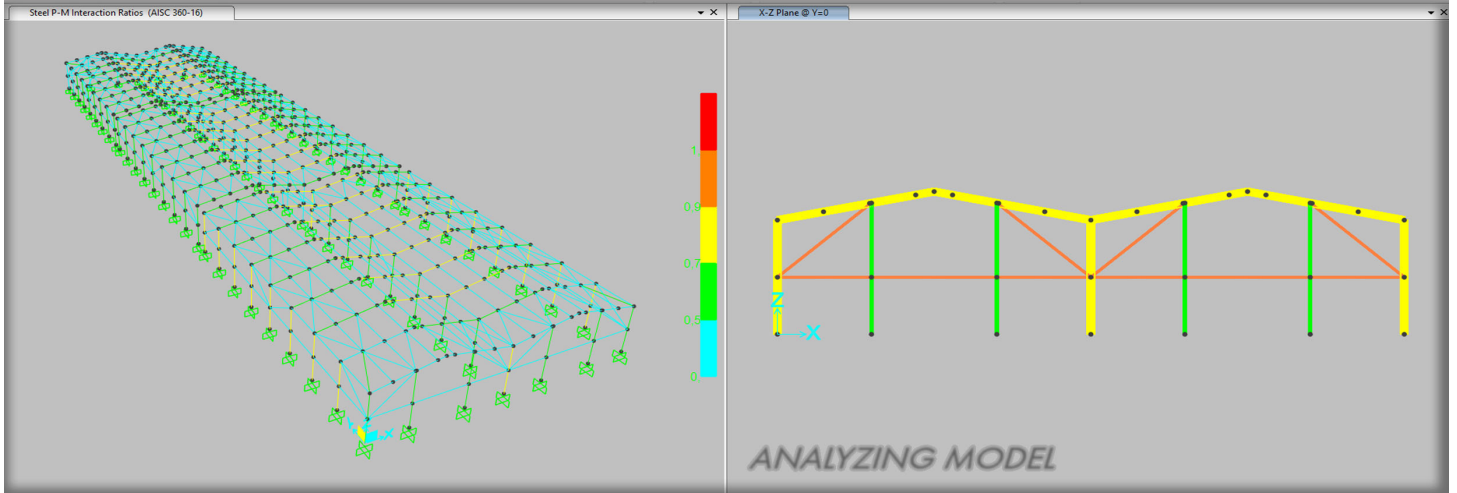

*GREAT WORK START WITH COLLABORATION.*

*Since 1980, AkdenizSteel has focused on building relationships. From the first phone call to the completion of every prefabricated steel structure, our priority has been, and always will be, our customer.*

# NOT ALL BUILDINGS ARE CREATED EQUAL

WE USE CONVENTIONAL STEEL, IN A NON-CONVENTIONAL WAY

## ■ LATEST SOFTWARE & BIM PROCESSES

Our job is not just to tell you how your structure should be engineered. Our job is to guide you through the entire process, ensuring we deliver exactly what you envisioned. With the help of the latest BIM modeling software, we are able to take your building from concept to a 3D model that brings your building to life, right before your eyes.

## ■ COST-EFFECTIVE & TIME-SAVING PRECISION

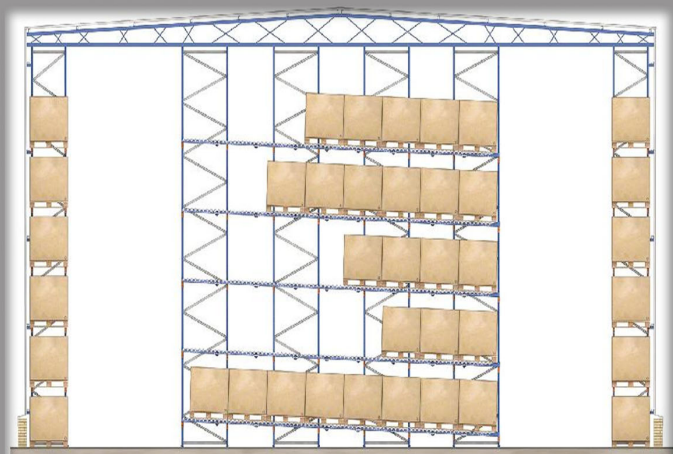

Our job is not just to tell you how your structure should be engineered. Our job is to guide you through the entire process, ensuring we deliver exactly what you envisioned. With the help of the latest BIM modeling software, we are able to take your building from concept to a 3D model that brings your building to life, right before your eyes.

# ENGINEERED TO A HIGHER STANDARD

NO MATTER THE SIZE OF YOUR PROJECT, WE ARE COMMITTED TO CREATING THE MOST EFFICIENT AND TECHNICALLY SOUND BUILDING SYSTEM POSSIBLE.

INITIAL ANALYSIS

## STRUCTURAL COMPONENTS

### ▶ LONG SPAN CAPABILITIES

- CLEAR SPAN STRUCTURES
- CUSTOM COLUMN SPACING

### ▶ MEZZANINES

### ▶ MULTI-STORY STRUCTURES

- STAIRS
- OPTIMIZED FLOOR FRAMING SYSTEMS

### ▶ DESIGNED FOR SPECIALTY LOADS

- LARGE DYNAMIC LOADS
- HIGH CAPACITY CRANE SYSTEMS

### ▶ CUSTOM FRAMING

- HIPPED ROOF
- HIGH PITCH
- FASCIAS
- OVERHANG/CANOPY
- PARAPETS
- OTHER NON-CONVENTIONAL OPTIONS

### ▶ CUSTOM STRUCTURES

- PLATFORMS
- PARKING CANOPIES
- WALKWAYS
